— HARDSCAPES —

2013 IDEA BOOK

LONG LIVE INSPIRATION

A person is sitting in a wooden chair in the foreground, their legs crossed and feet resting on the chair's seat. They are wearing brown leggings. The background features a stone fireplace with a fire burning inside. To the left of the fireplace is a black lantern with a warm glow. The scene is set in a serene outdoor space with stone walls and a paved area.

8:35 AM

WAKE UP WITH BELGARD. Nothing starts your day out more perfectly than enjoying a few quiet moments in a serene outdoor space made with Belgard pavers and walls. Enjoy a cup of coffee in a setting that will refresh your senses and make your good morning great.

4:05 PM

LAUGH WITH BELGARD. When you're enjoying an afternoon in your outdoor space, the smiles are wider, the laughs, louder, and the memories, longer. It's time to create the perfect setting for the moments that last a lifetime.

9:20 PM

UNWIND WITH BELGARD. The light may be fading, but the day is far from being over. It's time to gather some friends, kick back and let the worries of the day melt away in the most perfect way possible – your beautiful, new outdoor living space.

TIME to DREAM

XII

All day. Every day.

WE'RE THERE FOR THE MOMENTS THAT LAST

TO CREATE LASTING MEMORIES, YOU HAVE TO START WITH A PRODUCT THAT LASTS. AND THAT'S EXACTLY WHAT WE HAVE DONE. WE'VE BUILT OUR REPUTATION ON AN UNCOMPROMISING LEVEL OF QUALITY AND CRAFTSMANSHIP. BELGARD® SETS THE STANDARD FOR HARDSCAPES WITH A REMARKABLE NATURAL LOOK AND FEEL THAT'S UNRIVALED IN THE INDUSTRY. WE CONTINUALLY STRIVE TO OFFER INNOVATIVE PRODUCTS WITH ENDLESS STYLES, SHAPES, COLORS AND TEXTURES. SO NO MATTER IF YOU'RE CREATING AN OUTDOOR LIVING ROOM, KITCHEN, DRIVEWAY, POOL DECK, FIRE PIT OR SOMETHING ELSE ENTIRELY, YOU'RE SURE TO FIND A BELGARD COLLECTION THAT FITS YOUR LIFESTYLE.

It's time to dream.

It's time for an
OUTDOOR LIVING ROOM

1

TIME to DREAM

OUTDOOR LIVING ROOMS

When you create an outdoor living room, you can be sure it will not only be filled with life, but with moments that last a lifetime. Host an impromptu dinner party, invite the neighbors over, or just spend some quality time with your family. No matter what, your Belgard Hardscapes' outdoor living room – complete with fresh air, sunshine, lush greenery and all the amenities – will be your new favorite room.

It's time for an
OUTDOOR KITCHEN

2

TIME to DREAM

OUTDOOR KITCHENS

Imagine an outdoor kitchen so captivating and stunning that it becomes as inviting as your indoor kitchen. This dream can be a beautiful reality with a custom cooking area built right into your backyard patio. No matter if you're planning a simple kitchen space or a backyard bar and grill oasis, there's a Belgard paver and wall collection that will perfectly complement your style and take your culinary experience to a whole new level.

It's time for
DRIVEWAYS AND WALKWAYS

3

TIME to DREAM

DRIVEWAYS AND WALKWAYS

Only Belgard pavers can transform a driveway or walkway into a first impression that truly lasts. Whether through classic patterns recalling cobblestone streets or textures with the rugged look of ancient Roman cut stone, your curb appeal will be undeniably welcoming. Elegant beauty is only half the story; our pavers are durable and tough. They will perform without question during winter's chill or summer's heat. Your grand entrance awaits.

PAVERS

LAFITT™ &
MEGA-LAFITT™ PAVER

NATURAL TEXTURE, INCREDIBLE DURABILITY

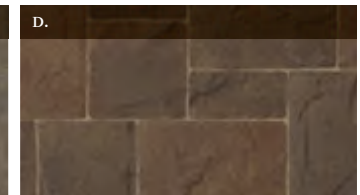

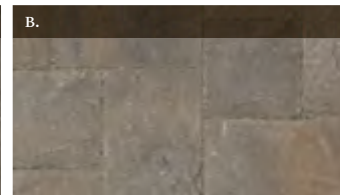

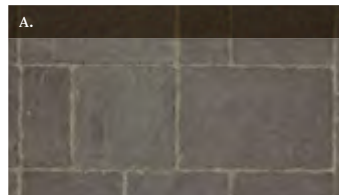

NATURAL COLLECTION

Lafitt and Mega-Lafitt feature the most natural-looking texture available in a modular paver. These pavers combine the look and feel of a cut flagstone with the strength and long-term durability customers expect from Belgard. Modular shapes allow for ample design flexibility. Mega-Lafitt has larger proportions than Lafitt and an 80mm height. Lafitt is 60mm.

PAVERS

LAFITT™ RUSTIC SLAB
CLASSIC STYLE PAIRED WITH MODERN DURABILITY™

NATURAL COLLECTION

Lafitt Rustic Slab features the look and texture of cut slate combined with the lasting strength and staying power that are hallmarks of Belgard pavers. Three shapes allow for a wide variety of design options, giving homeowners the ability to create eye-catching patios, walkways and more, with a natural slate appearance.

PAVERS

MEGA-ARBEL®

A NATURAL LOOK ON A GRAND SCALE

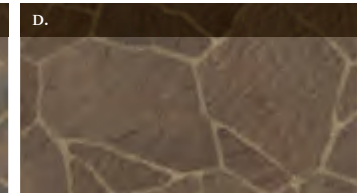

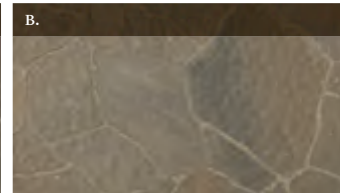

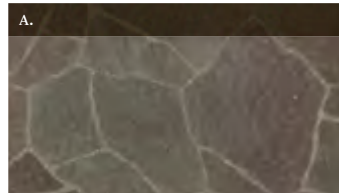

NATURAL COLLECTION

Mega-Arbel pavers give homeowners the perfectly integrated, natural-looking hardscapes they desire. Its scale is similar to natural flagstone. With its irregular shape and textured surfaces, Mega-Arbel creates outdoor spaces that flow harmoniously into the surrounding landscape.

COLORS

- A. Brookstone Slate
- B. Cotswold Mist

- D. Harvest Blend

Actual color and size may vary. To assure your total satisfaction, request samples of the style and color you're interested in.

PAVERS

SUBTERRA® STONE
GREAT LOOKING AND GREEN-FRIENDLY

NATURAL COLLECTION

Subterra Stone might very well be the most attractive, natural-looking permeable paver on the market. Featuring a false joint structure, it offers the elegant look of chiseled stone, yet it's easy to install. Subterra is ideal for homeowners who desire environmental stewardship without compromising beauty and style.

HARDSCAPES AND PAVEMENT

COMPARISON INFORMATION

	APPLICATION	DURABILITY & MAINTENANCE	APPEARANCE & COLOR OPTIONS	INITIAL COST & INSTALLATION
CONCRETE PAVERS	Driveways, walkways and patios	High durability with low maintenance needs. Pavers regularly last for decades and many manufacturers offer a 25-50 year warranty. Stained or broken pavers can be replaced without patches. Ants and weeds in joints can be prevented by sealing pavers once.	Wide range of surface options available including different color, shape, texture and style options. Laying patterns may be varied to complement architecture of home. Different pavers may be mixed to create unique designs or color diversity. Single color may be used for color consistency.	Moderate cost. Tightly fitted, uniform units are placed over a sand bed and compacted aggregate base. Immediately ready for use. May be installed by homeowner.
COBBLE STONE	Walkways and patios	High durability as stones regularly last for decades. Wide joints may encourage weeds and ants so maintenance is important.	Lends an elegant, informal feel to areas. Different stones offer limited color, size and shape options.	High cost and difficulty of installation since each unit must be fitted together by hand. Immediately ready for use.
STAMPED CONCRETE	Driveways, walkways and patios	Moderate durability and maintenance requirements. Cracking is common in stamped concrete, and repairs may leave unattractive patches. Weeds or ants may occur in joints or cracks.	Surface is usually colored and may be customized in color depending on provider. Patterns usually imitate pavers or natural stone from a distance. Up-close surface appearance is not tight or always consistent.	Moderate to high cost and difficult for homeowner to install due to specialized equipment needs. Must wait for concrete to harden before use.
SLAB CONCRETE	Driveways, walkways and patios	Moderate durability and maintenance requirements. Cracking is common in slab concrete and repairs may leave unattractive patches. Weeds or ants may occur in joints or cracks.	Very limited color options of gray or light brown. May be colored on the surface only. No diversification of shapes, texture or styles.	Moderate to low cost; difficult for homeowner to install. Must wait 5 to 7 days for hardening before use.
ASPHALT	Driveways, walkways and patios	Low durability and high maintenance as wear and weather break down the surface. A black seal coat is required every 2-3 years to maintain integrity. Ruts or pothole repairs may leave unattractive patches. Subject to erosion from oil drippings.	Very limited design and color options. No diversification of shapes, texture or styles.	Low cost; cannot be installed by a homeowner. Goes in quickly over compacted aggregate base.
NATURAL STONE	Walkways and patios	High durability though depending on specific stone used, may chip. Fairly easy to maintain but watch for smooth surfaces that may be slippery when wet.	Wide range of color, shape and style options. Hard to maintain consistent color throughout because of diversity of color within individual pieces.	Moderate to high cost depending on regional availability. Difficult to install due to inconsistent shapes and sizes. If mortared, must wait until mortar hardens to use.
WOOD DECKING	Patios	Low durability and high maintenance as wood decks need to be resealed regularly to keep from rotting and splitting.	Wide diversity of color through stains and painting of surface. Limited texture and shape options.	Moderate cost; may be installed by homeowner. Ready for immediate use.

TIME *to* ENJOY

TIME to ENJOY IT FOREVER

FIRST, YOU DREAMED AND IMAGINED THE POSSIBILITIES OF THE PERFECT OUTDOOR LIVING ROOM, KITCHEN, DRIVEWAY, WALKWAY, POOL DECK, FIRE PIT OR FIREPLACE. NEXT, YOU DILIGENTLY PLANNED AND CAREFULLY CHOSE FROM A WIDE SELECTION OF PAVER AND WALL COLLECTIONS TAILORED TO MEET YOUR LIFESTYLE NEEDS. NOW IT'S TIME TO ENJOY IT. HERE ARE SOME QUICK TIPS TO MAKE SURE YOUR SPACE IS ALWAYS READY.

Maintenance is easy with a quick sweep of the broom or blower. Leaves and debris will soon disappear.

A few containers of colorful blooms, whether annuals or perennials, create a festive mood for special occasions or all season long.

Personalize your space with outdoor throw pillows and cushions to soften the area. If it's chilly, add an outdoor throw or blanket.

Last but not least, see our recipes below for food that will entertain as much as it will delight.

RECIPES

BIANCA PIZZA *Courtesy of Chicago Brick Oven, chicagobrickoven.com*

Ingredients

Olive oil
Garlic salt
Provolone cheese (*imported is preferred*)
Mozzarella cheese
Ricotta cheese
Romano cheese
Broccoli as desired (*fresh or frozen*)
Black pepper
Use a pre-made dough or go to chicagobrickoven.com for a homemade dough recipe.

Instructions

- Preheat your outdoor brick oven.
- Saute broccoli if fresh or thaw if frozen.
- Grate and mix provolone and mozzarella cheeses (*2 parts provolone to 1 part mozzarella*).
- Brush a thin coat of olive oil over the entire pizza shell.
- Spread a generous coating of the cheese mixture over shell.
- Add ricotta (*small hand scoops a few inches apart*).
- Add broccoli (*as desired*).
- Sprinkle black pepper, as desired, and bake.
- Add grated Romano cheese before serving.

PEANUT BUTTER S'MORES

Ingredients

Several large marshmallows as desired
Sweetened chocolate squares
Graham crackers
Peanut butter

Instructions

- Unwind and clean wire coat hangers or prepare sticks for roasting marshmallows.
- Spread a thin layer of peanut butter on half of a graham cracker.
- Place a chocolate square or two on top of peanut butter graham cracker and set aside.
- Roast 1-2 large marshmallows to preference over an open flame.

- Place hot roasted marshmallows on top of chocolate squares and top with other half of the graham cracker.
- Enjoy!

Optional: *Spread peanut butter over the second half of the graham cracker before placing it on top of the roasted marshmallows for an extra yummy treat.*

TECHNICAL INFORMATION

PAVERS AND RETAINING WALLS – WHAT YOU NEED TO KNOW

PAVING STONES

Natural materials are used in the manufacturing of these products. Color variations and shadings can be expected. Therefore, we cannot guarantee color and will not be responsible for any color variation. Reproduction of color photographs may vary. For actual product color, please obtain a sample of the product you have selected.

Efflorescence

Efflorescence is a common and natural occurrence. It is a deposit, usually white in color, that may appear on the surface of concrete. It is not a manufacturing defect. It is caused by moisture within the material dissolving natural salts that eventually reach the surface, leaving the salt or a white discoloration on the surface upon evaporation. We do not guarantee against efflorescence.

Leaf Stains

On occasion, fall leaves and even some garden mulch will temporarily stain paving stones. This does not constitute a defect in the product. The key word here is “temporarily.” Normal exposure to both sun and rain will eventually fade most natural stains. DO NOT power-wash stains. Paving stones are porous, and power-washing will only force surface debris into the concrete. There are chemicals available to clean stains. Please consult with a Belgard representative.

Rust Stains

Trace amounts of a natural mineral known as pyrite can be found within aggregates used to manufacture concrete paving stones and wall units. It is a common occurrence in many types of natural stone such as bluestone, granite and limestone as well as concrete and asphalt. The mineral is undetectable until it is exposed to moisture and oxygen, causing it to oxidize – resulting in rust spots or stains. Oxidation normally occurs within 6–9 months of installation. This does not constitute a defect in the product, but should you discover an excessive amount of rust, contact your Belgard representative directly. A Belgard representative will then evaluate the situation and initiate measures to address your concerns as quickly as possible.

- Power-washing – not recommended (reference Leaf Stains).
- Responsibility for claims of any kind is strictly limited to the purchase price of the material. Shipping and replacement labor are not included.
- All dimensions illustrated herein are nominal and approximate.
- Minor cracks, scratch marks and/or chipping incidental to the customary methods of manufacturing and shipping/handling shall not be grounds for material rejection.
- All warranties regarding paving stones, written or implied, are null and void should stone dust, limestone screenings or masonry sand be used as the setting bed or pavement base in any application of paving stones. Industry standards recommend the use of concrete sand in accordance with ASTM C-33 for paving stone bedding (ICPI Tech Specs 2, 4, 9, 12, 14).
- It is recommended that approximately 1% of each project built with concrete paving stones be stored on-site for replacement in case of future damage.
- Paving stone heights may vary by 1/8”.
- 3-1/8” thick paving stones conform to 8000 psi based on 2-3/8” thickness as per ASTM C-936.
- Bullnose Coping Stone, Towne Square (12 x 12), London Cobble (9 x 12.5) and Turfstone do not apply to ASTM C-936. Turfstone (5000 psi), Towne Square (12 x 12), London Cobble (9 x 12.5) and Lafitt Rustic Slab are not recommended for driveways.

SPECIFICATIONS FOR PAVING STONES:

Compressive Strength: 8000 psi

Water Absorption: 5% maximum. Will meet or exceed ASTM C-936 Freeze-Thaw.

RETAINING WALLS

Leveling Pad: Block should be 1” below grade for every 8” above grade and must be set on a 6” stone bed above virgin, undisturbed soil.

Special Design Concerns: Slopes above the wall; slopes below the toe of the wall; proposed uses of the wall, i.e., parking lots, streets, driveways, unusual loads on top of the wall; clay soils; wall terracing or water applications. Should any of these conditions exist, contact your Belgard representative for technical assistance.

Efflorescence

Efflorescence is a common and natural occurrence. It is a deposit, usually white in color, that may appear on the surface of concrete. It is not a manufacturing defect. It is caused by moisture within the material dissolving natural salts that eventually reach the surface, leaving the salt or a white discoloration on the surface upon evaporation. We do not guarantee against efflorescence.

The information provided herein is for preliminary design only. A qualified engineer should be consulted for site analysis and structure design. Belgard Hardscapes does not assume liability for improper design and/or installation.

SPECIFICATIONS FOR SEGMENTAL RETAINING WALL UNITS:

Compressive Strength: 3000 psi

Water Absorption: 7% maximum. Will meet or exceed ASTM C-1372

Composition: high strength, high density, “O” slump concrete
